

Jump Start Stallions -- 2011

SW DANIEL (*Dante x SW Naomi)

Dante's first son out of SW Naomi, is currently living at Hawkview Ranch in Bend Oregon. Daniel, tall, athletic and proud, exhibits the finest of all the qualities we expect from his family going back 20 generations

Daniel's sire *Dante was imported from the Moos stud in Bavaria. He is one of the last sons of Nasrallah who sired many successful performance horses. The older siblings of Dante are successful dressage and performance horses in Europe.

Daniel's dam, SW Naomi, carries the Shagya family lines of O'Bajan through her sire Oman. The O'Bajan family brings versatility, athleticism, length of leg, deep heart girth and a short coupled frame. These are characteristics highly sought after in the modern sport horse and have been passed on to all of Naomi's offspring.

Daniel exemplifies all of the best qualities of his sire and dam and as a young stallion represents the best of the ShA lines. He has a kind temperament, and is thoughtful and willing to please. His first son, SW Domingo, was born in May 2008 and as a 2year old has grown to almost 16 h and still growing. Daniel's 2009 filly SW Sarenade takes after her sire with the promise of an athletic build and a sweet personality. She is offered for sale this year. Call for details.

Daniel has also produced two really lovely Shagya crosses from outside mares. Proving once more that quality offspring result when the Shagya Arabian is crossed with Trakehner, Thoroughbred, Quarter Horse, Arabian or Warmblood lines Daniel is a good choice for your mare this season!

We are proud to offer a breeding from SW Daniel to any ASAV member as part of the Jump Start 2011 program for \$400. AI by cooled semen only. All collection and AI fees paid by the mare owner.

Daniel will stand for subsequent breedings in the 2011 season for a stud fee of \$650
