

Jump Start Stallions -- 2011

LILY CREEK STETSON

STETSON is presently competing in AERC Distance riding and won a 30 mile race over the tough Old Dominion trail with his owner Brian Coss. They are training for 2011 and STETSON is showing great enthusiasm for trail work. He is ridden with a bitless bridle and controlled by voice and Brian is thrilled with his progress. He is a true testament to the quick, attentive attitude we find so prevalent in the Shagya breed.

STETSON has sired a number of foals from Warm blood, Thoroughbred and Trakehner mares.

All of them have wonderful substantial bone, and his pure Shagya traits inherited from his lineage. Yes, he is inbred, but he seems to have inherited all of the positive traits and we have yet to see any negatives.

He throws his exceptional swinging gait and his quiet, willing temperament that is without rival. STETSON is an excellent choice for anyone wanting to improve riding characteristics. His foals are tall, 16 h.h. or more and are very pleasing and correct in conformation.

Jump Start Offering of TWO Breedings
\$400 each Breeding

Frozen semen only -- stored at ER Concepts
Amissville, Va.

Stud Fees for 2011 -- Semen quality is excellent
Two doses.....\$400 plus shipping and rental
